

AI Assignment Solver Tool

Complete GitHub Submission Project with Source Code

Project Overview

This project is an AI-powered Assignment Solver Tool developed using Flask and OpenAI API. The system can generate solutions for essays, programming tasks, math problems, lab reports, and data analysis assignments.

Project Features

- Essay Solver
- Programming Task Solver
- Math Problem Solver
- Lab Report Generator
- Data Analysis Support
- Modern Web Interface
- OpenAI API Integration

Main Backend File (app.py)

```
from flask import Flask, render_template, request  
from openai import OpenAI  
from dotenv import load_dotenv  
import os  
  
load_dotenv()  
  
app = Flask(__name__)  
  
client = OpenAI(api_key=os.getenv("OPENAI_API_KEY"))  
  
def generate_solution(prompt, assignment_type):  
    system_message = f"You are an expert {assignment_type} assignment solver."  
  
    response = client.chat.completions.create(  
        model="gpt-3.5-turbo",  
        messages=[  
            {"role": "system", "content": system_message},
```

```
        {"role": "user", "content": prompt}
    ],
    temperature=0.7
)

return response.choices[0].message.content

@app.route('/', methods=['GET', 'POST'])
def home():

    solution = ""

    if request.method == 'POST':

        assignment_type = request.form['assignment_type']
        prompt = request.form['prompt']

        solution = generate_solution(prompt, assignment_type)

    return render_template('index.html', solution=solution)

if __name__ == '__main__':
    app.run(debug=True)
```

requirements.txt

flask openai python-dotenv

Frontend File (templates/index.html)

```
<!DOCTYPE html>
<html>
<head>
<title>AI Assignment Solver</title>
</head>

<body>

<h1>AI Assignment Solver</h1>

<form method="POST">

<select name="assignment_type">
<option>Essay</option>
<option>Programming</option>
<option>Math</option>
<option>Lab Report</option>
<option>Data Analysis</option>
</select>

<textarea name="prompt"></textarea>

<button type="submit">
Generate Solution
</button>

</form>

</body>
</html>
```

CSS Styling File (static/style.css)

```
body {  
    font-family: Arial;  
    background: #f4f4f4;  
}  
  
.container {  
    width: 80%;  
    margin: auto;  
    background: white;  
    padding: 20px;  
}  
  
button {  
    background: blue;  
    color: white;  
}
```

README.md File

AI Assignment Solver Tool An AI-powered assignment solving tool built using Flask and OpenAI API. ##
Installation pip install -r requirements.txt ## Run Project python app.py

How to Upload on GitHub

1. Create a GitHub account. 2. Create a new repository. 3. Upload all project files. 4. Push your code. 5. Submit the repository link.
